Dear Sirs,

Approval of Q8 Mahler GR5

The Q8 Mahler GR5, has been field-tested for 10.000 hrs with supervision of Rolls-Royce Power System, Engines Bergen AS. Inspection of the engine condition has been carried out at the start, at an intermediate 5.000 hours inspection and at the end of the field test at 10.217 hours. The performance of the lube oil has been found acceptable which reason Rolls-Royce Power System, Bergen Engines AS has no objection to use of the Q8 Mahler GR5 for our B35:40 medium speed engines operating on natural gas. The Q8 Mahler GR5 will be included in Rolls-Royce Power System, Bergen Engines AS list of recommended lubricating oils for the B35:40 gas engine.

The supplying oil company undertakes all responsibility for the performance of the lubricating oil in service to the exclusion of any liability of Rolls-Royce Power System, Bergen Engines AS.

The applicant oil company undertakes the responsibility to inform Rolls-Royce Power System, Bergen Engines AS of any subsequent changes in the formulation of the lubricating oil such as base oil, additives, etc.

Rolls-Royce Power System, Bergen Engines as,

Atle Tolleshaug
Principal Engineer – service engineering
