APPROVAL OF KUWAIT PETROLEUM LUBRICATING OILS

Dear Sirs,

The Kuwait Petroleum lubricating oil, Q8 Mozart HPM SAE 40, has gone through a 7973 hour field test in the Wärtsilä Vasa 6R32 No. 5873 engine on board HD-29 fishing vessel. Based on the lubricating oil analyses and the results of the engine inspection Wärtsilä Diesel hereby approve the use of following Kuwait Petroleum products

Q8 MOZART HPM SAE 30 (SAE 30, BN 12)

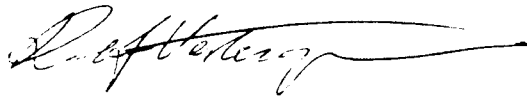

Q8 MOZART HPM SAE 40 (SAE 40, BN 12)

in the engines Wärtsilä Vasa 22, Wärtsilä Vasa 22/26 and Wärtsilä Vasa 32 with fuels classed ISO 8217: 1987 (E) ISO-F-DMX - DMA. In these engine types the suitability of SAE 40 grade depends on the capacity of the lube oil cooler used in the installation.

These oils will be included in Wärtsilä Diesel's list of approved lubricating oils found in the engine manuals.

Yours faithfully,

Wärtsilä Diesel International Ltd Oy
Diesel Technology
