

Q8 Bernoulli 46

Description

Part-synthetic high temperature chain oil

Application

- Q8 Bernoulli is designed to give the highest protection and productivity to ensure operating reliability 24/7.
- Due to the specially formulated anti-wear chemistry and part-synthetic base fluid, Q8 Bernoulli minimises deposit formation while ensuring excellent lubrication.

Benefits

- Outstanding protection against ageing.
- No formation of deposits or varnish on the chains.
- Excellent detergent properties, to keep the chains clean.
- Good adhesiveness and also good lubricity performance.
- Very good anti-corrosion properties to protect the metal parts.
