Approval Q8 Mozart TM40

Dear Mr. Hensen

Based on the results of tests on a 9M32 with Q8 Mozart KV SAE 40 and running the older engines 8M552C with Q8 Mozart TM40 we able to grant approval status II for the oil Q8 Mozart TM40.

This means it is free to be used in a MaK/CM engine under controlled options. For this an analysis of the oil should be send to Kiel /CD2 every 500h running hours . With good results after 5000h this oil could get an approval status I and been listed in our recommendation list for regional use.

Best regards

Caterpillar Motoren GmbH & Co, KG

M. Rautenstrauch i.A. *W. H. H.*
