Approval of gas engine oil: Q8 Mahler MA SAE 40
Beginning of approval: extension
End of approval: 06.06.2020

Dear Mr. Pijper,

We herewith confirm that the gas engine oil **Q8 Mahler MA SAE 40** with the approval number **EOPG 19/2018** is approved for using in the gas engines series 400 of MTU Onsite Energy GmbH running with **natural gas and propane gas**.

The approval of gas engine oils with the viscosity class SAE 40 is limited to ambient temperatures > 10°C.

The validity of the approval is limited and will expire after this period automatically, if the manufacturer or supplier has not applied for extension. The approval will expire before the end of this period, if the approved formulation has been changed or if field results are negative.

Kind regards,

MTU Onsite Energy GmbH
